WHAT IS FORENINGSMENTOR?

In Denmark there is a strong tradition of engaging in an association. The associations, run by volunteers, offer a multitude of activities such as sports, art, music, and scouting. These opportunities are utilized by a lot of Danish children and families. Engaging in associations does not only enrich your child with an active lifestyle but also serves as an expansion of their social relations and is a great opportunity to form friendships. As an international family in Denmark this is a popular way of engaging in Danish culture and society. Enrollment in Danish associations is also a great way of developing your child's Danish language skills.

How can ForeningsMentor help you?

- We can help your child to the right club or association depending on your child's interests – may it be football, swimming, badminton, music, arts, or something completely different.
- We can help you understand the webpage of the association, provide information about when and where the activity begins, prices and contact information.
- We can help find your local association which matches the interests of your child.
- We can help you with all your questions regarding the association and what kind of clothes or gear your child needs to bring to the activities.

If you sign up via the link: [English | Foreningsmentor](#) you will be contacted to get your child started in a leisure activity.
